

Nuclear Security Personal Development Grants

Are you a Researcher working in Nuclear Security Science at a University, Research Establishment, or a Company within the UK?

Do you need funding to attend a Nuclear Security related Research Conference, Training Course, or an Industrial Placement within or outside of the UK?

Will your proposed activities strengthen your research and innovation capacity or enable new collaborations in Nuclear Security Science?

If you have answered YES, to all 3 questions then you may be eligible to receive a Personal Development Grant (PDG) of up to £1,000 from the STFC Nuclear Security Science Network+. 50% matched funding is normally required except for Early Career Researchers.

Over the past 5 years, the NuSec Network has made 29 PDG awards to Researchers at UK Universities totalling around £24,000, to support attendance and collaborations at Nuclear Security Science events and courses in the USA, Europe, and Australia.

The closing date **for all PDG Applications** is now one month before the start date of the proposed personal development activity. Applicants will be informed of a decision usually within 1-2 weeks of their application submission.

For further Application details, please visit our NuSec Website to download the latest **PDG Guidance Notes which includes our Assessment Criteria and Application Form**.

The Nuclear Security Science Network 'NuSec' promotes research and innovation in Nuclear Security Detection. It is open to all Academic, Industrial and Government scientists and engineers working in Nuclear Security. We support collaborations, networking, and capability of our stakeholders by hosting events, funding research projects and personal development. We also promote funding and research opportunities offered by other UK, European and International organisations.

If you wish to join the network, please email: info@nusec.uk and or to find out more visit www.nusec.uk
